ÆRA

BALANZ
BY PÖNNIGHAUS

Specific crafty details like the end grain inlay refine the striking appearance. The cracks can change naturally – this piece of wood remains vital. Holes and slight cracks in the plate are traces of the growth and filled with wax or tin thus making each table unique.

BALANZ
BY PÖNNIGHAUS

BALANZ is also available as **BALANZ 2** with a glued solid pillar. For all types of wood besides oak, a glued pillar is standard.

Optional end grain inlay in the solid plate as crafty detail.

Tin-filled holes and cracks.

Ground plate raw steel transparent painted (standard version).

Traditionally modern!

SOUND-WANDBOARD KT548

Wild oak white oiled, lid white lacquered,
active speakers and acoustic sheets installed

W 176 H 57 D 48 cm

For our sound furniture we offer the installation of an active sound system which is optimized for this specific piece of furniture. This sound system is the most compact one existing at the moment and consists of a high-end ICEpower-class-d-amplifier and 2-way speakers, which are perfectly fitted in the furniture behind acoustic sheets. The system connects via Bluetooth with your mobile devices (smartphone, tablet) or can be connected to your TV. Furthermore it can be integrated in a SONOS-multiroom-network.

TABLES SPIN

The **SPIN** tables with their plain temperate shapes are elegant companions to your other furniture. The fine solid or lacquered plate is carried by a cubic metal frame, which is lacquered in anthracite (other RAL colours available). For the plates, the whole Pönnighaus wood and colour selection is available. The tables exist in different varieties.

KATANA WALL COMBINATION KT578

left side lid (top) and drawer (bottom)

Underneath the wall side board and the ankle board is a LED stripe for indirect lighting.

W 360 H 195 D 48-44-40-36 cm, slot at the bottom 74x21 cm

Colours

Only genuine with the tree edge.

You like the original? The natural and authentic? The **DINING TABLE OREGON** stands for just these attributes. Solid wood tells us about its creation and origin – by its appearance. We have guardedly manufactured it to a solid table. Its polished tree edges just want to make your fingers follow them – an almost sensual pleasure. The frame made of solid bars underlines the rustic character and provides much sitting space on all places on the table.

Plates with tree edges can be manufactured for many other table models on your request.

DINING TABLE OREGON OR240

With polished tree edge, solid pillars,
wild oak oiled, ground plate raw steel
transparent lacquered
L 240 W 90–100 cm
Table lengths 180–280 cm

BOXX tables can be extended up to 100 cm with up to two extension plates. The chromed extension rails are hidden inside the solid plate.

Firm.

Solid wood and fine stainless steel in an absolutely reduced form – **BOXX** offers a symbiosis which concentrates on the most important. The wood fitted in the frame has the same finish as the plate, which is offered in 52mm (standard) or 42 mm strength.

DINING TABLE BOXX BX201
wild oak "platinum grey" oiled
L 200 W 100 cm
frame stainless steel with wooden fittings 8x8 cm,
(standard)
Table lengths 160–280 cm, Table widths 90–110 cm

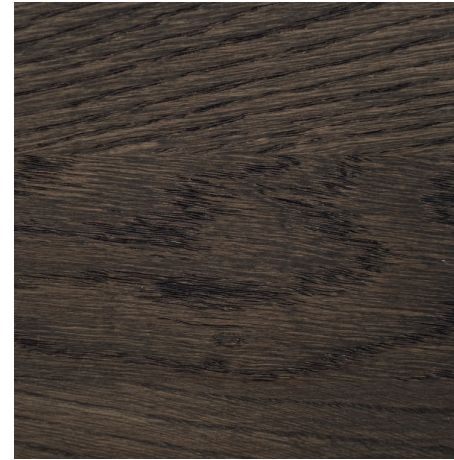

Beautiful shifting.

Just brilliant, this shifting plate! Magically glides the solid, fine pected plate aside to unveil the 80 cm long inlay. Despite the asymmetry the table Monza stays perfectly balanced. The extension in cool aluminium lies on the painted pillar, which is so thin, that every place on the table has much sitting space. The 12 mm strong ground plate of painted raw steel can be sheathed with stainless steel. And if you don't want the shifting plate – Monza is also available with a static plate.

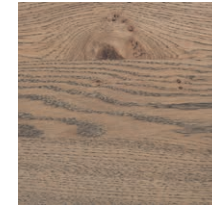

DINING TABLE MONZA MZ475 wild oak "smoke" matte lacquered,
L 180 W 100 cm, inlay 80 cm
Table lengths 180–240 cm, Table widths 90–100 cm
pillar "concrete light" lacquered (other colours or solid wooden model available)

Design meets craft

The name **Pönnighaus** stands for tables and solid wood furniture with excellent design and manufacturing quality: different styles, dimensions and surfaces; selected woods, depending on the program combined with aluminium, stainless steel, steel or glass.

For living and dining rooms numerous models in several programs are offered. Exceeding this variety the **Pönnighaus manufacture** is able to produce individual custom-made furniture. Wishes regarding dimensions, wood, surface and colour besides the standard models are gladly realized on your request.
